1. The 9th regular meeting of the Subcommittee for Guidance to Collectors was held at 1300 hrs on 10 January 1958 in Room 442, Annex #3.

2. The minutes of SGC meetings held on 10 and 20 December 1957 were read and approved.

3. Initial contributions by member agencies to the review regarding the adequacy of all guided missile collection guidance and requirements were discussed. Each member briefed the committee regarding the content of information included in his format. After lengthy discussion it was concluded that additional information concerning the many forms of published guidance and requirements was required in order to determine whether or not gaps exist. Specifically, each form of guidance or requirements should be reviewed to determine which of the several Soviet missile systems it concerned, e.g., SSM, AAM, etc., and which portion of the information requirements are included, e.g., missile characteristics, test, R&D, production, etc. A format to include this data was established and members agreed to bring this data to the next scheduled meeting, at which time a final reporting procedure can be determined.

4. The memorandum to the SGC, subject: REG Priorities and Guidance, dated 24 December 1957, was discussed. In order to review priorities and guidance to REG it was determined that a modification of the guidance and priorities furnished by GMIC to
